

Leading Our Industry

Our climate strategy is clear: lead by example and elevate the industry. Our science-based climate goals represent a clear road map to meaningfully reduce emissions in alignment with the Paris Agreement.

**REDUCE
SYSCO'S GLOBAL
EMISSIONS***
27.5%
BY 2030
*Scope 1 & 2 Emissions

Taking action...

By adding nearly 2,500 electric trucks of our U.S. tractor fleet

By sourcing 100% renewable electricity globally

Reducing our annual greenhouse gas emissions by
445,500 metric tons

This reduction equates to over:

7.3 million
Tree seedlings
grown for 10 years

OR

545,000
Acres of U.S.
forests in one year

OR

1.1 billion
Miles driven by
an average
passenger vehicle

THE POWER OF PARTNERSHIP

A majority of our environmental footprint comes from food production. We are working with our suppliers to set their own climate commitments because together we will make a difference.
